RE: DA2020/0552 - 181 Allambie Road ALLAMBIE HEIGHTS NSW 2100

As a local resident who regularly walks around the Manly Dam reserve, and enjoys the beautiful natural surroundings, and the flora and fauna that live there, I would like to submit my very strong opposition to the proposed development. We need our natural flora and bushland which supports our wildlife now more than ever in these days of extreme natural disasters that are threatening the very survival of our precious wildlife. There can be no justification for the destruction of our beautiful reserves, which provide a home to our wildlife and are a source of enjoyment and appreciation for the community.
