

DEVELOPMENT APPLICATION ASSESSMENT REPORT

Application Number:	DA2024/0596
----------------------------	-------------

Responsible Officer:	Michael French
Land to be developed (Address):	Lot 13 DP 20271, 98 West Street BALGOWLAH NSW 2093
Proposed Development:	Alterations and additions to a dwelling house
Zoning:	Manly LEP2013 - Land zoned R1 General Residential
Development Permissible:	Yes
Existing Use Rights:	No
Consent Authority:	Northern Beaches Council
Land and Environment Court Action:	No
Applicant:	Nigel White

Application Lodged:	28/05/2024
Integrated Development:	No
Designated Development:	No
State Reporting Category:	Residential - Alterations and additions
Notified:	05/06/2024 to 19/06/2024
Advertised:	Not Advertised
Submissions Received:	0
Clause 4.6 Variation:	4.3 Height of buildings: 3.5%
Recommendation:	Approval

Estimated Cost of Works:	\$ 456,948.00
---------------------------------	---------------

PROPOSED DEVELOPMENT IN DETAIL

The applicant seeks development consent for the following:

Alterations to the ground floor that includes:

- Demolition works to the internal walls to form an open plan living area.
- Staircase to access the proposed first floor.

A first floor addition that consists of:

- Master bedroom with WIR and an ensuite.
- Two (2) additional bedrooms with built in wardrobes.
- Living area.
- Bathroom.
- Staircase to access the ground floor.

ASSESSMENT INTRODUCTION

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared (the subject of this report) taking into account all relevant provisions of the Environmental Planning and Assessment Act 1979, and the associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon the subject site and adjoining, surrounding and nearby properties;
- Notification to adjoining and surrounding properties, advertisement (where required) and referral to relevant internal and external bodies in accordance with the Act, Regulations and relevant Development Control Plan;
- A review and consideration of all submissions made by the public and community interest groups in relation to the application;
- A review and consideration of all documentation provided with the application (up to the time of determination);
- A review and consideration of all referral comments provided by the relevant Council Officers, State Government Authorities/Agencies and Federal Government Authorities/Agencies on the proposal.

SUMMARY OF ASSESSMENT ISSUES

Manly Local Environmental Plan 2013 - 4.3 Height of buildings

Manly Development Control Plan - 4.1.2 Height of Buildings (Incorporating Wall Height, Number of Storeys & Roof Height)

Manly Development Control Plan - 4.1.4 Setbacks (front, side and rear) and Building Separation

Manly Development Control Plan - 4.1.5 Open Space and Landscaping

Manly Development Control Plan - 4.1.6 Parking, Vehicular Access and Loading (Including Bicycle Facilities)

SITE DESCRIPTION

Property Description:	Lot 13 DP 20271 , 98 West Street BALGOWLAH NSW 2093
Detailed Site Description:	<p>The subject site consists of one (1) allotment located on the eastern side of West Street.</p> <p>The site is regular in shape with a frontage of 16.46m along West Street and a depth of 36.575m. The site has a surveyed area of 601.8m².</p> <p>The site is located within the R1 General Residential zone pursuant to the Manly Local Environmental Plan 2013 and accommodates a single storey dwelling.</p> <p>The site has a downward slope toward the north-eastern corner of the site.</p> <p>The site has a mix of vegetation throughout. There are no details of any threatened species on site.</p>

Detailed Description of Adjoining/Surrounding Development

Adjoining and surrounding development is characterised by a mix of dwellings within an R1 General Residential zone.

Map:

SITE HISTORY

The land has been used for residential purposes for an extended period of time. A search of Council's records has revealed the following relevant history:

DA2023/1337 dated 6 March 2024- Alterations and additions to a dwelling house.

This application was refused for the following reasons:

1. Non-compliance with the Height of Buildings development standard of Manly LEP 2013;
2. Exceedance of the Number of Storeys development control of Manly DCP 2013;
3. Insufficient information to determine safe and efficient vehicle access to the site;
4. Insufficient provision of off-street car parking.

The revised application has satisfactorily addressed issues 3 and 4 by maintaining the existing on-site parking and vehicle access. The dwelling currently includes a single garage and driveway, which are deemed sufficient for the additional works proposed. The current demand for parking will not increase, and the Manly DCP does not mandate an additional car space for this development.

However, the proposed upper-level addition, which relates to the initial refusal reasons 1 and 2, has not been altered. Despite this, the dwelling is considered to be adequately designed to maximise floor

space while minimising adverse impacts on neighboring properties. Upon thorough reassessment and consideration of the cumulative impacts of the development, the proposal is deemed supportable in this instance. The detailed assessment below provides further justification for this conclusion.

ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979, are:

Section 4.15 Matters for Consideration	Comments
Section 4.15 (1) (a)(i) – Provisions of any environmental planning instrument	See discussion on “Environmental Planning Instruments” in this report.
Section 4.15 (1) (a)(ii) – Provisions of any draft environmental planning instrument	There are no current draft environmental planning instruments.
Section 4.15 (1) (a)(iii) – Provisions of any development control plan	Manly Development Control Plan applies to this proposal.
Section 4.15 (1) (a)(iiia) – Provisions of any planning agreement	None applicable.
Section 4.15 (1) (a)(iv) – Provisions of the Environmental Planning and Assessment Regulation 2021 (EP&A Regulation 2021)	<p><u>Part 4, Division 2</u> of the EP&A Regulation 2021 requires the consent authority to consider "Prescribed conditions" of development consent. These matters have been addressed via a condition of consent.</p> <p><u>Clauses 36 and 94</u> of the EP&A Regulation 2021 allow Council to request additional information. No additional information was requested in this case.</p> <p><u>Clause 61</u> of the EP&A Regulation 2021 requires the consent authority to consider AS 2601 - 1991: The Demolition of Structures. This matter has been addressed via a condition of consent.</p> <p><u>Clause 69</u> of the EP&A Regulation 2021 requires the consent authority to consider insurance requirements under the Home Building Act 1989. This matter has been addressed via a condition of consent.</p> <p><u>Clause 69</u> of the EP&A Regulation 2021 requires the consent authority to consider the provisions of the Building Code of Australia (BCA). This matter has been addressed via a condition of consent.</p>
Section 4.15 (1) (b) – the likely impacts of the development, including environmental impacts on the natural and built environment and social	<p>(i) Environmental Impact</p> <p>The environmental impacts of the proposed development on the natural and built environment are addressed under the Manly Development Control Plan section in this report.</p>

Section 4.15 Matters for Consideration	Comments
and economic impacts in the locality	<p>(ii) Social Impact The proposed development will not have a detrimental social impact in the locality considering the character of the proposal.</p> <p>(iii) Economic Impact The proposed development will not have a detrimental economic impact on the locality considering the nature of the existing and proposed land use.</p>
Section 4.15 (1) (c) – the suitability of the site for the development	The site is considered suitable for the proposed development.
Section 4.15 (1) (d) – any submissions made in accordance with the EPA Act or EPA Regs	See discussion on “Notification & Submissions Received” in this report.
Section 4.15 (1) (e) – the public interest	No matters have arisen in this assessment that would justify the refusal of the application in the public interest.

EXISTING USE RIGHTS

Existing Use Rights are not applicable to this application.

BUSHFIRE PRONE LAND

The site is not classified as bush fire prone land.

NOTIFICATION & SUBMISSIONS RECEIVED

The subject application has been publicly exhibited from 05/06/2024 to 19/06/2024 in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2021 and the Community Participation Plan.

As a result of the public exhibition of the application Council received no submissions.

REFERRALS

Internal Referral Body	Comments
NECC (Development Engineering)	The proposal is for internal alterations and addition of a first floor. No changes are proposed to the vehicle crossing or parking arrangement. No objections to approval subject to conditions as recommended.

External Referral Body	Comments
Ausgrid - SEPP (Transport and Infrastructure) 2021, s2.48	The proposal was referred to Ausgrid who provided a response stating that the proposal is acceptable subject to compliance with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice. These recommendations will be included as a condition of consent.

ENVIRONMENTAL PLANNING INSTRUMENTS (EPIs)*

All, Environmental Planning Instruments (SEPPs and LEPs), Development Controls Plans and Council Policies have been considered in the merit assessment of this application.

In this regard, whilst all provisions of each Environmental Planning Instruments (SEPPs and LEPs), Development Controls Plans and Council Policies have been considered in the assessment, many provisions contained within the document are not relevant or are enacting, definitions and operational provisions which the proposal is considered to be acceptable against.

As such, an assessment is provided against the controls relevant to the merit consideration of the application hereunder.

State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans (SREPs)

SEPP (Sustainable Buildings) 2022

A BASIX certificate has been submitted with the application (see Certificate No. A1748151 dated 20 May 2024).

A condition has been included in the recommendation of this report requiring compliance with the commitments indicated in the BASIX Certificate.

SEPP (Transport and Infrastructure) 2021

Ausgrid

Section 2.48 of Chapter 2 requires the Consent Authority to consider any development application (or an application for modification of consent) for any development carried out:

- within or immediately adjacent to an easement for electricity purposes (whether or not the electricity infrastructure exists).
- immediately adjacent to an electricity substation.
- within 5.0m of an overhead power line.
- includes installation of a swimming pool any part of which is: within 30m of a structure supporting an overhead electricity transmission line and/or within 5.0m of an overhead electricity power line.

Comment:

The proposal was referred to Ausgrid who raised no objections.

SEPP (Resilience and Hazards) 2021

Chapter 4 – Remediation of Land

Sub-section 4.6 (1)(a) of Chapter 4 requires the Consent Authority to consider whether land is contaminated. Council records indicate that the subject site has been used for residential purposes for

a significant period of time with no prior land uses. In this regard it is considered that the site poses no risk of contamination and therefore, no further consideration is required under sub-section 4.6 (1)(b) and (c) of this Chapter and the land is considered to be suitable for the residential land use.

Manly Local Environmental Plan 2013

Is the development permissible?	Yes
After consideration of the merits of the proposal, is the development consistent with:	
aims of the LEP?	Yes
zone objectives of the LEP?	Yes

Principal Development Standards

Standard	Requirement	Proposed	% Variation	Complies
Height of Buildings:	8.5m	8.8m	3.5%	No
Floor Space Ratio	FSR: 0.5:1	FSR: 0.4:1 (240.8m ²)	N/A	Yes

Compliance Assessment

Clause	Compliance with Requirements
2.7 Demolition requires development consent	Yes
4.3 Height of buildings	No
4.4 Floor space ratio	Yes
4.5 Calculation of floor space ratio and site area	Yes
4.6 Exceptions to development standards	Yes
6.2 Earthworks	Yes
6.4 Stormwater management	Yes
6.8 Landslide risk	Yes
6.12 Essential services	Yes

Detailed Assessment

4.3 Height of buildings

Description of non-compliance:

Development standard:	Height of buildings
Requirement:	8.5m
Proposed:	8.8m
Percentage variation to requirement:	3.5%

SECTION B-B

Assessment of request to vary a development standard:

The following assessment of the variation to Clause 4.3 – Height of Buildings development standard, has taken into consideration the recent judgement contained within *Initial Action Pty Ltd v Woollahra Municipal Council [2018] NSWLEC 118*, *Baron Corporation Pty Limited v Council of the City of Sydney [2019] NSWLEC 61*, and *RebelMH Neutral Bay Pty Limited v North Sydney Council [2019] NSWCA 130*.

Clause 4.6 Exceptions to development standards:

(1) *The objectives of this clause are as follows:*

- (a) *to provide an appropriate degree of flexibility in applying certain development standards to particular development,*
- (b) *to achieve better outcomes for and from development by allowing flexibility in particular circumstances.*

(2) *Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.*

Comment:

Clause 4.3 – Height of Buildings development standard is not expressly excluded from the operation of this clause.

(3) *Development consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating:*

- (a) *that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and*
- (b) *that there are sufficient environmental planning grounds to justify contravening the development*

standard.

(4) Development consent must not be granted for development that contravenes a development standard unless:

(a) the consent authority is satisfied that:

(i) the applicant's written request has adequately addressed the matters required to be demonstrated by subclause (3), and

(ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and

(b) the concurrence of the Secretary has been obtained.

Clause 4.6 (4)(a)(i) (Justification) assessment:

Clause 4.6 (4)(a)(i) requires the consent authority to be satisfied that the applicant's written request, seeking to justify the contravention of the development standard, has adequately addressed the matters required to be demonstrated by cl 4.6(3). There are two separate matters for consideration contained within cl 4.6(3) and these are addressed as follows:

(a) that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and

Comment:

The Applicant's written request has demonstrated that the objectives of the development standard are achieved, notwithstanding the non-compliance with the development standard.

In doing so, the Applicant's written request has adequately demonstrated that compliance with the development standard is unreasonable or unnecessary in the circumstances of this case as required by cl 4.6(3)(a).

(b) that there are sufficient environmental planning grounds to justify contravening the development standard.

Comment:

In the matter of Initial Action Pty Ltd v Woollahra Municipal Council [2018] NSWLEC 118, Preston CJ provides the following guidance (para 23) to inform the consent authority's finding that the applicant's written request has adequately demonstrated that there are sufficient environmental planning grounds to justify contravening the development standard:

'As to the second matter required by cl 4.6(3)(b), the grounds relied on by the applicant in the written request under cl 4.6 must be "environmental planning grounds" by their nature: see Four2Five Pty Ltd v Ashfield Council [2015] NSWLEC 90 at [26]. The adjectival phrase "environmental planning" is not defined, but would refer to grounds that relate to the subject matter, scope and purpose of the EPA Act, including the objects in s 1.3 of the EPA Act.'

s 1.3 of the EPA Act reads as follows:

1.3 Objects of Act(cf previous s 5)

The objects of this Act are as follows:

(a) to promote the social and economic welfare of the community and a better environment by the proper management, development and conservation of the State's natural and other resources,

(b) to facilitate ecologically sustainable development by integrating relevant economic, environmental and social considerations in decision-making about environmental planning and assessment,

- (c) to promote the orderly and economic use and development of land,*
- (d) to promote the delivery and maintenance of affordable housing,*
- (e) to protect the environment, including the conservation of threatened and other species of native animals and plants, ecological communities and their habitats,*
- (f) to promote the sustainable management of built and cultural heritage (including Aboriginal cultural heritage),*
- (g) to promote good design and amenity of the built environment,*
- (h) to promote the proper construction and maintenance of buildings, including the protection of the health and safety of their occupants,*
- (i) to promote the sharing of the responsibility for environmental planning and assessment between the different levels of government in the State,*
- (j) to provide increased opportunity for community participation in environmental planning and assessment.*

The applicants written request argues, in part:

- *The variation does not cause unreasonable impacts on the streetscape, neighborhood character, or amenity, such as additional overshadowing or loss of privacy.*
- *The design of the proposed dwelling ensures a cost-effective, orderly, and efficient use of the site.*
- *The upper level of the proposed dwelling aligns with the built form of nearby buildings.*
- *Amenity considerations have been reasonably addressed in the design.*

It is agreed that the objectives of the development standard are achieved notwithstanding the non-compliance with the standard. It is considered that the written request has demonstrated consistency with the objectives of the Height of Buildings development standard and zone objectives. It is also considered that the applicant has demonstrated that the proposal adequately responds to the amenity of the built environment. In this regard, the applicants written request has satisfactorily demonstrated that the proposed development satisfies cls 1.3 (c) and (g) of the EPA Act. As such, the applicants written request has adequately demonstrated that there is sufficient environmental planning grounds to justify contravening the development standard as required by cl 4.6 (3)(b).

In this case, strict compliance with the standard is unnecessary as the proposed works do not propose an unreasonable adverse environmental impact. There is no unreasonable extension to the bulk or scale of the dwelling, all works remaining within the building envelope. Therefore, it is considered that there is sufficient environmental planning grounds to justify contravening the development standard' under LEP clause 4.6(3).

Therefore, Council is satisfied that the applicant's written request has adequately addressed the matters required to be demonstrated by cl 4.6(3).

Clause 4.6 (4)(a)(ii) (Public Interest) assessment:

cl 4.6 (4)(a)(ii) requires the consent authority to be satisfied that:

(ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out

Comment:

In considering whether or not the proposed development will be in the public interest, consideration must be given to the underlying objectives of the Height of Buildings development standard and the

objectives of the R2 Low Density Residential zone. An assessment against these objectives is provided below.

Objectives of development standard

The underlying objectives of the standard, pursuant to Clause 4.3 – ‘Height of buildings’ of the MLEP 2013 are:

(1) The objectives of this clause are as follows:

a) to provide for building heights and roof forms that are consistent with the topographic landscape, prevailing building height and desired future streetscape character in the locality,

Comment:

The proposed addition is considered to effectively control the bulk and scale of the building. The design adequately minimises the impact on the visual perception of scale, maintaining suitable integration with the surrounding built environment. Furthermore, the additional floorspace remains within the existing footprint of the building.

b) to control the bulk and scale of buildings,

Comment:

The proposed bulk and scale of the dwelling is considered supportable in this instance.

c) to minimise disruption to the following:

(i) views to nearby residential development from public spaces (including the harbour and foreshores),

(ii) views from nearby residential development to public spaces (including the harbour and foreshores),

(iii) views between public spaces (including the harbour and foreshores),

Comment:

The proposal will not interrupt any significant view corridors to or from public spaces or adjoining sites.

d) to provide solar access to public and private open spaces and maintain adequate sunlight access to private open spaces and to habitable rooms of adjacent dwellings,

Comment:

The proposal will ensure that solar access is effectively provided to both public and private open spaces, maintaining adequate sunlight access to private open spaces and to habitable rooms of adjacent dwellings.

e) to ensure the height and bulk of any proposed building or structure in a recreation or environmental protection zone has regard to existing vegetation and topography and any other aspect that might conflict with bushland and surrounding land uses.

Comment:

The works will maintain an acceptable environmental impact, ensuring that the height and bulk of the proposed structure consider existing vegetation, topography, and any other

aspects that might conflict with bushland and surrounding land uses, thereby preserving the use or enjoyment of adjoining land and the public domain.

Zone objectives

The underlying objectives of the R1 General Residential zone are:

- *To provide for the housing needs of the community.*

Comment:

The proposal is considered to comply with the above-mentioned objective.

- *To provide for a variety of housing types and densities.*

Comment:

The proposal is considered to comply with the above-mentioned objective.

- *To enable other land uses that provide facilities or services to meet the day to day needs of residents.*

Comment:

The proposal is considered to comply with the above-mentioned objective.

Conclusion:

For the reasons detailed above, the proposal is considered to be consistent with the objectives of the R1 General Residential zone.

It is considered on balance, that having regard to the particular circumstances discussed above, the proposed departure from the development standard is acceptable and it is reasonable that flexibility to the standard be applied.

Exception to Development Standards conclusion

The submitted written Clause 4.6 variation request is considered to be well founded having regard to the circumstances of the development is considered appropriate that flexibility in the application of the development standard 'Clause 4.3 – 'Height of buildings' be applied. In this context the proposal meets the Objects of the Environmental Planning and Assessment Act 1979, contained in Section 1.3, having considered the relevant provisions under s.4.15 of the Act. Consequently, the development is considered to be in the public interest, subject to conditions.

Clause 4.6 (4)(b) (Concurrence of the Secretary) assessment:

cl. 4.6(4)(b) requires the concurrence of the Secretary to be obtained in order for development consent to be granted.

Planning Circular PS20-002 dated 5 May 2020, as issued by the NSW Department of Planning, advises that the concurrence of the Secretary may be assumed for exceptions to development standards under environmental planning instruments that adopt Clause 4.6 of the Standard Instrument. In this regard, given the consistency of the variation to the objectives of the zone, the concurrence of the Secretary for the variation to the Height of buildings Development Standard is

assumed by the delegate of Council as the development contravenes a numerical standard by less than or equal to 10%.

Manly Development Control Plan

Built Form Controls

Built Form Controls - Site Area: 601.8m²	Requirement	Proposed	% Variation*	Complies
4.1.2.1 Wall Height	N: 6.8m (based on gradient 1:20)	7.5m	10.3%	No

Schedule 1 – Maps accompanying the DCP	Yes	Yes

Detailed Assessment

4.1.2 Height of Buildings (Incorporating Wall Height, Number of Storeys & Roof Height)

Description of non-compliance

Clause 4.1.2.1 Wall Height requires that walls are not to exceed the stipulated wall height, determined by the slope of the land.

In this regard, the required maximum wall height along the northern elevation is 6.8m and along the southern elevation, 6.6m.

The proposed northern wall height is 7.5m, causing a variation of 10.3%.
The proposed southern wall height is 7m, causing a variation of 6.1%.

Clause 4.1.2.2 Number of Storeys requires that

- a) *Buildings must not exceed 2 storeys, except on land in areas 'L' and 'N1' on the LEP Height of Building Map and notwithstanding the wall and roof height controls in this plan.*
- b) *Buildings on land in areas 'L' and 'N1' on the LEP Height of Building Map Buildings must not exceed 3 storeys notwithstanding the wall and roof height controls in this plan.*

The proposed dwelling is three (3) storeys toward the north-west corner of the building, where the proposed first floor extends over the existing garage level.

It should be noted that there is a downward slope toward the rear of the site. The first-floor addition is modulated and articulated such that the proposed wall height and portion of the dwelling that is three (3) storeys, does not result in excessive bulk and scale. Given the topographical constraints, strictly adhering to the clause's requirements—particularly the limitation on the number of stories—while maximising the site's potential with the proposed first-floor addition is not achievable. Considering these factors, it is reasonable to conclude that strict compliance with the requirements of this clause is not necessary in this case. An assessment against the objectives of this clause is conducted below:

Merit consideration

There are no underlying objectives of this control under which to consider the merits of this variation. This control instead relies on the objectives for the Height of Buildings at clause 4.3 in the Manly LEP 2013. The proposal has been assessed against these objectives under clause 4.6, above in this report, and as follows:

- (a) to provide for building heights and roof forms that are consistent with the topographic landscape, prevailing building height and desired future streetscape character in the locality,

Comment:

The proposed building height and roof form are considered to be consistent with the topography of the subject site, prevailing building heights and desired streetscape character.

- (b) to control the bulk and scale of buildings,

Comment:

An acceptable bulk and scale has been maintained by the proposal.

- (c) to minimise disruption to the following—

- (i) views to nearby residential development from public spaces (including the harbour and foreshores),
- (ii) views from nearby residential development to public spaces (including the harbour and foreshores),
- (iii) views between public spaces (including the harbour and foreshores),

Comment:

It is considered that view sharing is maintained to and from the subject site, adjoining sites and public spaces.

- (d) to provide solar access to public and private open spaces and maintain adequate sunlight access to private open spaces and to habitable rooms of adjacent dwellings,

Comment:

The proposal is considered to provide acceptable solar access to public and private open spaces and maintain adequate sunlight access to private open spaces and to habitable rooms of adjacent dwellings.

(e) to ensure the height and bulk of any proposed building or structure in a recreation or environmental protection zone has regard to existing vegetation and topography and any other aspect that might conflict with bushland and surrounding land uses.

Comment:

The site is neither within a recreation nor an environmental protection zone, and has no adjoining relation to one. No further assessment is required.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of MLEP 2013 / MDCP and the objectives specified in section 1.3(a) of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

4.1.4 Setbacks (front, side and rear) and Building Separation

Description of non-compliance

Clause 4.1.4.2 Side setbacks and secondary street frontages requires the following:

- *Built structures are setback a minimum of one third of the height of the adjacent external wall of the proposed building.*
- *All new windows from habitable dwellings of dwellings that face the side boundary are to be setback at least 3m from side boundaries.*

The proposal requires a southern side setback of 2.3m. The development proposes a setback of 2m, causing a 13% variation.

The development also results in windows setback 2m from the side boundary line, causing a 33.3% variation.

The proposed works within the side setback area are considered to have an acceptable impact upon the streetscape character, as well up adjacent and surrounding dwellings. Given that the works forming a non-compliance are not deemed excessive and do not propose an unreasonable amenity impact in this instance, strict compliance with the requirements of this clause is not required, subject to the proposal meeting the objectives of the clause. In this regard, assessment against the objectives of this clause is conducted below.

Merit consideration:

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

Objective 1) To maintain and enhance the existing streetscape including the desired spatial proportions of the street, the street edge and the landscape character of the street.

Comment:

The proposal is considered to sufficiently maintain and enhance the existing streetscape, encompassing the desired spatial proportions of the street, street edge, and landscape character.

Objective 2) To ensure and enhance local amenity by:

- *providing privacy;*

- *providing equitable access to light, sunshine and air movement; and*
- *facilitating view sharing and maintaining adequate space between buildings to limit impacts on views and vistas from private and public spaces.*
- *defining and adding character to the streetscape including the provision of adequate space between buildings to create a rhythm or pattern of spaces; and*
- *facilitating safe and adequate traffic conditions including levels of visibility around corner lots at the street intersection.*

Comment:

The bulk and scale of the built form is minimised/softened by the site topography. The proposal does not unreasonably increase the bulk and scale of the dwelling, and as such, will not unreasonably minimise equitable access to light, sunshine and air movement. The siting of the proposed works provides sufficient space/screening to and from surrounding and adjacent properties. The proposed development is not considered to unreasonably impact view sharing. The proposed works will not adversely impact traffic conditions.

Objective 3) To promote flexibility in the siting of buildings.

Comment:

The development is not considered to have any impact on access within the site. The proposed works are not considered to unreasonably impact amenity.

Objective 4) To enhance and maintain natural features by:

- *accommodating planting, including deep soil zones, vegetation consolidated across sites, native vegetation and native trees;*
- *ensuring the nature of development does not unduly detract from the context of the site and particularly in relation to the nature of any adjoining Open Space lands and National Parks; and*
- *ensuring the provisions of State Environmental Planning Policy No 19 - Urban Bushland are satisfied.*

Comment:

All mature canopy trees and vegetation are proposed to remain on site. The nature of development is not considered to unduly detract from the context of the site. It is considered that the *provisions of State Environmental Planning Policy No 19 - Urban Bushland* have been adequately satisfied.

Objective 5) To assist in appropriate bush fire asset protection zones.

Comment:

The site is not within a bushfire zone. No further assessment is required.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of MLEP 2013 / MDCP and the objectives specified in section 1.3(a) of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

4.1.5 Open Space and Landscaping

The proposal will not modify the numerical calculation of Open Space or Landscaped Area. Therefore, a complete site plan with measurements for these areas was not required and was not requested in

this instance. No additional assessment is required.

4.1.6 Parking, Vehicular Access and Loading (Including Bicycle Facilities)

Whilst the proposal is numerically inconsistent with Schedule 3 of MDCP 2013 that requires two (2) parking spaces, the provision of a second car parking space within the subject site is not achievable within the existing site context, nor do the proposed works generate a demand for additional car parking.

Additionally, it is considered that there is adequate on-street parking available to fulfil the needs of the residents.

In this regard, it is considered acceptable that the proposal does not increase the amount of parking available on the site.

THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES

The proposal will not significantly affect threatened species, populations or ecological communities, or their habitats.

CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

POLICY CONTROLS

Northern Beaches Section 7.12 Contributions Plan 2022

The proposal is subject to the application of Northern Beaches Section 7.12 Contributions Plan 2022.

A monetary contribution of \$4,569 is required for the provision of new and augmented public infrastructure. The contribution is calculated as 1% of the total development cost of \$456,948.

CONCLUSION

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2021;
- All relevant and draft Environmental Planning Instruments;
- Manly Local Environment Plan;
- Manly Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is

considered to be:

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

Council is satisfied that:

1) The Applicant's written request under Clause 4.6 of the Manly Local Environmental Plan 2013 seeking to justify a contravention of Clause 4.3 Height of Buildings has adequately addressed and demonstrated that:

- a) Compliance with the standard is unreasonable or unnecessary in the circumstances of the case; and
- b) There are sufficient environmental planning grounds to justify the contravention.

2) The proposed development will be in the public interest because it is consistent with the objectives of the standard and the objectives for development within the zone in which the development is proposed to be carried out.

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

RECOMMENDATION

That Northern Beaches Council as the consent authority permits a contravention of clause 4.3 Height of Building development standard pursuant to clause 4.6 of the MLEP 2013 as the applicant's written request has adequately addressed the merits required to be demonstrated by subclause (3) and the proposed development will be in the public interest and is consistent with the objectives of the standard and the objectives for development within the zone in which the development is proposed to be carried out.

Accordingly Council as the consent authority grant Development Consent to DA2024/0596 for Alterations and additions to a dwelling house on land at Lot 13 DP 20271, 98 West Street, BALGOWLAH, subject to the conditions printed below:

Terms and Reasons for Conditions

Under section 88(1)(c) of the EP&A Regulation, the consent authority must provide the terms of all conditions and reasons for imposing the conditions other than the conditions prescribed under section 4.17(11) of the EP&A Act. The terms of the conditions and reasons are set out below.

GENERAL CONDITIONS

1. Approved Plans and Supporting Documentation

Development must be carried out in accordance with the following approved plans (stamped by Council) and supporting documentation, except where the conditions of this consent expressly

require otherwise.

Approved Plans				
Plan Number	Revision Number	Plan Title	Drawn By	Date of Plan
2481 DA 1	D	PLANS, ELEVATIONS AND SECTIONS	Add-Style Home Additions	3 May 2024

Approved Reports and Documentation			
Document Title	Version Number	Prepared By	Date of Document
Waste Management Plan	-	-	-
BASIX Certificate	A1748151	Add-Style Home Additions	20 May 2024

In the event of any inconsistency between the approved plans, reports and documentation, the approved plans prevail.

In the event of any inconsistency between the approved plans and a condition of this consent, the condition prevails.

Reason: To ensure all parties are aware of the approved plans and supporting documentation that applies to the development.

2. Compliance with Other Department, Authority or Service Requirements

The development must be carried out in compliance with all recommendations and requirements, excluding general advice, within the following:

Other Department, Authority or Service	EDMS Reference	Dated
Ausgrid	Ausgrid Referral Response	undated

(NOTE: For a copy of the above referenced document/s, please see Application Tracking on Council's website www.northernbeaches.nsw.gov.au)

Reason: To ensure the work is carried out in accordance with the determination and the statutory requirements of other departments, authorities or bodies.

3. Prescribed Conditions

- (a) All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).
- (b) BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);
- (c) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
 - (i) showing the name, address and telephone number of the Principal Certifier for the work, and

- (ii) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
- (iii) stating that unauthorised entry to the work site is prohibited.

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.

- (d) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifier for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
 - (i) in the case of work for which a principal contractor is required to be appointed:
 - A. the name and licence number of the principal contractor, and
 - B. the name of the insurer by which the work is insured under Part 6 of that Act,
 - (ii) in the case of work to be done by an owner-builder:
 - A. the name of the owner-builder, and
 - B. if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifier for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

- (e) Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:
 - (i) protect and support the adjoining premises from possible damage from the excavation, and
 - (ii) where necessary, underpin the adjoining premises to prevent any such damage.
 - (iii) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
 - (iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place.

Reason: Legislative requirement.

4. General Requirements

- (a) Unless authorised by Council:
Building construction and delivery of material hours are restricted to:
 - 7.00 am to 5.00 pm inclusive Monday to Friday,
 - 8.00 am to 1.00 pm inclusive on Saturday,

- No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

- 8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

- (b) Construction certificate plans are to be in accordance with all finished levels identified on approved plans. Notes attached to plans indicating tolerances to levels are not approved.
- (c) Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.
- (d) At all times after the submission of the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of an Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.
- (e) Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.
- (f) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.
- (g) Prior to the release of the Construction Certificate, payment of the following is required:
 - i) Long Service Levy - Payment should be made to Service NSW (online or in person) or alternatively to Northern Beaches Council in person at a Customer Service Centre. Payment is not required where the value of the works is less than \$250,000. The Long Service Levy is calculated on 0.25% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.
 - ii) Section 7.11 or Section 7.12 Contributions Plan – Payment must be made to Northern Beaches Council. Where the subject land to which the development is proposed is subject to either a Section 7.11 or 7.12 Contributions Plan, any contribution to which the development is liable under the respective plan that applies is to be paid to Council. The outstanding contribution will be indexed at time of payment in accordance with the relevant Contributions Plan.
 - iii) Housing and Productivity Contribution - Payment must be made on the NSW Planning Portal for development to which this contribution applies. The amount payable is subject to indexation at the time of payment.
- (h) The applicant shall bear the cost of all works associated with the development that occurs on Council's property.
- (i) No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.

- (j) Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.
- (k) No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.), on the land to be developed, or within adjoining properties, shall be removed or damaged during excavation or construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.
- (l) Prior to the commencement of any development onsite for:
 - i) Building/s that are to be erected
 - ii) Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place
 - iii) Building/s that are to be demolished
 - iv) For any work/s that is to be carried out
 - v) For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.
- (m) A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.
- (n) The works must comply with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice.
- (o) Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.
 - (1) Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following;

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:

 - (i) Swimming Pools Act 1992
 - (ii) Swimming Pools Amendment Act 2009
 - (iii) Swimming Pools Regulation 2018
 - (iv) Australian Standard AS1926 Swimming Pool Safety
 - (v) Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
 - (vi) Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
 - (2) A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.
 - (3) Filter backwash waters shall be conveyed to the Sydney Water sewerage system in sewered areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the

irrigation area for any wastewater system and is separate from any onsite stormwater management system.

- (4) Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

FEES / CHARGES / CONTRIBUTIONS

5. Policy Controls

Northern Beaches Section 7.12 Contributions Plan 2022

A monetary contribution of \$4,569.48 is payable to Northern Beaches Council for the provision of local infrastructure and services pursuant to section 7.12 of the Environmental Planning & Assessment Act 1979 and the Northern Beaches Section 7.12 Contributions Plan (as amended).

The monetary contribution is based on a development cost of \$456,948.00.

The total amount payable will be adjusted at the time the payment is made, in accordance with the provisions of the Northern Beaches Section 7.12 Contributions Plan (as amended).

Details demonstrating compliance, by way of written receipts issued by Council, are to be submitted to the Certifier prior to issue of any Construction Certificate or, if relevant, the Subdivision Certificate (whichever occurs first).

A copy of the Contributions Plan is available for inspection at 725 Pittwater Road, Dee Why or on Council's website at Northern Beaches Council - Development Contributions.

Reason: To provide for contributions in accordance with the Contribution Plan to fund the provision of new or augmented local infrastructure and services.

6. Security Bond

A bond (determined from cost of works) of \$2,000 and an inspection fee in accordance with Council's Fees and Charges paid as security are required to ensure the rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoining the site as a result of construction or the transportation of materials and equipment to and from the development site.

An inspection fee in accordance with Council adopted fees and charges (at the time of payment) is payable for each kerb inspection as determined by Council (minimum (1) one inspection).

All bonds and fees shall be deposited with Council prior to Construction Certificate or demolition work commencing, and details demonstrating payment are to be submitted to the Certifier prior to the issue of the Construction Certificate.

To process the inspection fee and bond payment a Bond Lodgement Form must be completed with the payments (a copy of the form is attached to this consent and alternatively a copy is located on Council's website at www.northernbeaches.nsw.gov.au).

Reason: To ensure adequate protection of Council's infrastructure.

BUILDING WORK – BEFORE ISSUE OF A CONSTRUCTION CERTIFICATE

7. Stormwater Disposal from Low Level Property

The applicant is to demonstrate how stormwater from the new development within this consent shall be disposed of to an existing approved system or in accordance with Northern Beaches Council's Water Management for Development Policy in particular Section 5.5 Stormwater Drainage from Low Level Properties. Details demonstrating that the existing approved system can accommodate the additional flows or compliance with Northern Beaches Council's policy by an appropriately qualified Civil Engineer are to be submitted to the Certifier for approval prior to the issue of the Construction Certificate.

Reason: To ensure appropriate provision for disposal and stormwater management arising from the development.

8. Installation and Maintenance of Sediment Control

Prior to any works commencing on site, including demolition, an erosion and sediment control plan must be prepared by a suitably qualified person in accordance with the following documents and provided to the Principal Certifier:

1. Council's relevant development control plan,
2. The guidelines set out in the NSW Department of Housing manual 'Managing Urban Stormwater: Soils and Construction Certificate' (the Blue Book) (as amended from time to time), and
3. The 'Do it Right On-Site, Soil and Water Management for the Construction Industry' (Southern Sydney Regional Organisation of Councils and the Natural Heritage Trust) (as amended from time to time).

Techniques used for erosion and sediment control on site are to be adequately maintained and monitored at all times, particularly after periods of rain, and shall remain in proper operation until all development activities have been completed and the site is sufficiently stabilised with vegetation.

Reason: To ensure no substance other than rainwater enters the stormwater system and waterways.

9. Waste Management Plan

A Waste Management Plan must be prepared for this development. The Plan must be in accordance with the Development Control Plan.

Details demonstrating compliance must be provided to the Certifier prior to the issue of the Construction Certificate.

Reason: To ensure that any demolition and construction waste, including excavated material, is reused, recycled or disposed of in an environmentally friendly manner.

10. Compliance with Standards

The development is required to be carried out in accordance with all relevant Australian Standards.

Details demonstrating compliance with the relevant Australian Standard are to be submitted to the Certifier prior to the issue of the Construction Certificate.

Reason: To ensure the development is constructed in accordance with appropriate standards.

11. Sydney Water "Tap In"

The approved plans must be submitted to the Sydney Water Tap in service, prior to works commencing, to determine whether the development will affect any Sydney Water assets and/or easements. The appropriately stamped plans must then be submitted to the Certifier demonstrating the works are in compliance with Sydney Water requirements.

Please refer to the website www.sydneywater.com.au for:

- "Tap in" details - see <http://www.sydneywater.com.au/tapin>
- Guidelines for Building Over/Adjacent to Sydney Water Assets.

Or telephone 13 000 TAP IN (1300 082 746).

Reason: To ensure compliance with the statutory requirements of Sydney Water.

DURING BUILDING WORK

12. Road Reserve

The applicant shall ensure the public footways and roadways adjacent to the site are maintained in a safe condition at all times during the course of the work.

Reason: Public safety.

13. Survey Certificate

A survey certificate prepared by a Registered Surveyor is to be provided demonstrating all perimeter walls columns and or other structural elements, floor levels and the finished roof/ridge height are in accordance with the approved plans.

Details demonstrating compliance are to be submitted to the Principal Certifier when the external structure of the building is complete.

Reason: To demonstrate the proposal complies with the approved plans.

14. Waste Management During Development

The reuse, recycling or disposal of waste during works must be done generally in accordance with the Waste Management Plan for this development.

Details demonstrating compliance must be submitted to the Principal Certifier.

Reason: To ensure demolition and construction waste is recycled or reused and to limit landfill.

BEFORE ISSUE OF THE OCCUPATION CERTIFICATE

15. Stormwater Disposal

The stormwater drainage works shall be certified as compliant with all relevant Australian Standards and Codes by a suitably qualified Civil Engineer. Details demonstrating compliance are to be submitted to the Principal Certifier prior to the issue of an Occupation Certificate.

Reason: To ensure appropriate provision for the disposal of stormwater arising from the development.

In signing this report, I declare that I do not have a Conflict of Interest.

Signed

Michael French, Planner
