RE: PEX2021/0001 - 161 Darley Street West MONA VALE NSW 2103

I am against this proposal because this road is a cul de sac. How a Councillor can even consider, let alone vote for a scheme that will substantially increase road traffic in a dead end street, that is already busy with traffic in a street that has a high proportion of older residents is nothing short of negligence. So if anyone is injured or worse is killed this community would be right to hold the planning officers and Councillors responsible.
