**RE: DA2020/1063 - 2 / 0 Bennett Street CURL CURL NSW 2096**

I strongly oppose the proposed development at John Fisher Park.

The hypocrisy of this DA submission is incredible, the proposal is to expand the oval from 2 to 4 playing fields, and extend the operating hours to 9:30pm at night, yet no traffic, parking or acoustic reports have been provided.

This DA cannot be approved unless the parking and noise impact are properly assessed.

Traffic, parking and noise will have a very serious impact on all neighbouring residents, all one has to do is attempt to drive down one of our streets when sport is in progress. It's not uncommon to become completely stuck as parents and players try to navigate through small residential streets to find a car space or pick up their children.

I am concerned for my mental health as well as my 4 childrens, with the proposed increased noise and light pollution in the area as well as increased street/parking congestion.

I am also concerned for the local animals that will no doubt be effected by the development. We recently paid premium price for our Curl Curl property, partly due to the relaxed atmosphere and close proximity to walk casually in the park day and night- all of this will be effected if the development goes ahead.

Again, I strongly object to the propped development and lighting at John Fisher Park. I, with my family will be directly negatively impacted by this proposal.
