RE: DA2021/1612 - 1 Clarke Street NARRABEEN NSW 2101

Dear Sir/Madam,

I refer to the DA for the continuation of the seawall at Collaroy. The DA does not include sand nourishment for the beach as an adjunct to the proposal. The building of a sea wall that will, according to many experts, lead to further beach loss would be shortsighted.

Additionally, the design of the wall seems to be at odds with expert advice as to design for beach maintenance. Whilst the building protection moment is obvious the future damage to the beach and the foreshore profile is not. This issue should be addressed in the DA. I have read that revetment walls are more effective for beach maintenance.

I would hope that the community who do not live on the beach still have a beach to enjoy at the end of this project.
