RE: DA2020/1180 - 2 / 25 Charles Street FRESHWATER NSW 2096

We object to this application on the grounds that the proposed additions will intrude on our privacy; providing a direct view into two rear bedrooms on our property. Additionally, it will block light and direct sunlight to our property. The height of the proposed addition will exceed the 8.5m height limit, due to the existing height of the building within the R2 zoning and should not go ahead.
