Sydney Regional Environmental Plan (Sydney Harbour Catchment) 2005	No	
Australian Heritage Register	No	
NSW State Heritage Register	No	
National Trust of Aust (NSW) Register	No	
RAIA Register of 20th Century Buildings of Significance	No	
Other	No	
Consideration of Application		
<p>The proposal seeks consent for the demolition of the existing buildings on 48 and 50 Eurobin Avenue, consolidation of these sites and the construction of a temporary demountable building for up to 24 months, to be used in association with Stella Maris College, including the change of use of the subject site from a residential to educational use and signage. The subject site is not located within a heritage conservation area (HCA) pursuant to Manly LEP 2013, however it is located within the</p>		

vicinity of a group listed heritage item.

The existing dwellings at 48 and 50 Eurobin Avenue, Manly are not heritage listed, however they are from the same period of the heritage listed “a group of two storey residential flat buildings”, and they both are considered to contribute positively to the existing context and the streetscape. The applicant may consider to retain and/or adaptive reuse of these buildings, however, if it is not a consideration, the proposed building form should be complementary to the context and to the heritage item across the road. This could be achieved by providing some articulation to the facade and by using complementary materials, finishes and colours. Although, the proposal is for temporary (24 months) structures on the subject site, considerations should be given to comply with the relevant controls of *Manly DCP 2013 - 3.2.1.1 Development in the vicinity of heritage items, or conservation areas* and *3.2.1.2 Potential Heritage Significance*. The impact of the proposed works upon the significance of the heritage items should be assessed in the Statement of Environmental Effects.

Therefore, the proposal is not acceptable in its current form.

Consider against the provisions of CL5.10 of Manly LEP 2013.

Is a Conservation Management Plan (CMP) Required? No

Has a CMP been provided? No

Is a Heritage Impact Statement required? No

Has a Heritage Impact Statement been provided? No

Further Comments

The proposal is therefore unsupported.
