RE: DA2020/0393 - 28 Lockwood Avenue BELROSE NSW 2085

I'd like to know how you will manage the traffic congestion already faced by current residents with the increase in the area of 100+ residence. Especially Glen st and Adams st including Forest Way! And how will glen street be managed as it's already majorly congested with parked cars and buses/trucks coming through which narrows the street and forcing cars to stop to allow buses through. I would also hope it doesn't go higher than the existing shopping centre. This area should not allow this type of development. Units belong in DEE Why and closer to the beaches in more suited areas.
