RE: DA2018/1708 - 195 Sydney Road FAIRLIGHT NSW 2094

126 people crammed into a 5 storey building across two blocks is overcrowding. 5 storey is too high. We live on the corner of Cohen Street and Sydney Road and we're not informed by Council...saw it in the Manly Daily. 38 car spaces exceeds the government level for social housing, plus 15 motorcycle spaces means all drivers will be entering/exiting on a highly dangerous bend and increasingly busy Sydney Road. We already have a problem with drunks in the area returning home from nights out in Manly, urinating and vomiting outside our front door, plus leaving bottles and garbage, causing us not to venture forth after dark.
