**RE: DA2018/1924 - Forest Way FRENCHS FOREST NSW 2086**

We completely object to the proposed plan to change the traffic to push it down through Grace Avenue and surrounding streets, like Bentley Avenue. These are residential roads! You have spent millions on alternative road alterations to Warringah Road. It should not then be us, as local residents, that suffer the surge of traffic being pushed into our side street - putting in danger our children in local schools, who walk this area, as well as mums with prams and not to mention the pollution that the traffic causes. It's a disgrace this issue has not been thought through with more consideration to all of the surrounding homes and people that it will affect.

I look forward to hearing back.

Best regards

Ruth
