Dear Claire Ryan

We have been advised that a proposed DA is under consideration for a Macdonalds on the corner where 7miles is, opposite the park and ride.

Does council have any idea what the current traffic blockages and jams are at that intersection and traffic light?! Are you of sound mind to consider this DA without significantly altering and upgrading the road infrastructure to cope with even more traffic through that intersection?! Clearly no common sense is prevailing in council which is no surprise but seriously?!?!

I would appreciate a response with what the intended road infrastructure upgrades are proposed or traffic measures to alleviate current congestion let alone increased congestion.

Regards
