**Subject:** Telstra tower in RSL village @ Narrabeen

Dear Sir

I acknowledge that the new Northern Beaches Council is doing some great work within the council boundaries e.g. new footpaths and guttering, fixing roads, tidying up shopping centres, etc. but not allowing Telstra to erect a tower in The War Vets village is potentially life threatening.

My husband and I moved into an independent living unit three years ago; the unit is great but we find it very frustrating to have very slow internet and poor, intermittent mobile phone reception.

It is very hard to understand why the council would deny a service that they, themselves, would expect and could not live without!

*With kind Regards*

*Shirley Walsh*
