**Subject:** Development proposal REV2021/0006

Hi there,

I am a resident living close to the Manly Dam site.

I love the area and the beautiful connection to nature it provides for the local community, and more importantly, how it houses threatened biodiversity in the form of Galaxias etc.

I therefore strongly oppose the development of nearby areas around the dam, its tributaries, and bushland.

Once gone, it can never be replaced. It would be a shame to lose this area and its substance due to development.

Please consider the community and the ecology and reject any further applications or appeals.

James
