Submission on PP 0007/13

1000 characters--you have to joking--for a 42 page document The height limit should be the same as surrounding development. Industrial Dev in Warriewood is 11m, Dwelling heights are 10m max and Mona Vale town centre 11m. The realigning of Boondah Rd is positive although from Figure 5 it looks as though the realignment is through the playing fields and expunges the car parking spaces. The extra road from Vuko Place is positive. Extra traffic movements will have a negative effect on residents on the east end of Warriewood Rd. The PP "embraces SHOROC(Employment Lands Study)and will expand the Warriewood Centre to "create a genuine town centre" Like Mona Vale?? What are the positive attributes of that centre?? Warriewood Centre works well because it is small and user friendly for those who live in the general vicinity. We do not need a DY or Mona Vale Shopping Centre in Warriewood. No extra land has been allocated for active recreation
