RE: DA2019/0200 - 130 Old Pittwater Road BROOKVALE NSW 2100

The Development of this site should not go ahead it will impact directly on the wildlife and bush in this bushland corridor that connects Allenby Park and Manly Dam. Please do not allow this precedent to be set for this beautiful bushland area.

This development also increases the risk of bushfire in this area, thankfully this has not happened in Allenby Park since 2005 but it is still a very real issue that we live with in this area.
