RE: DA2019/1260 - 29 North Avalon Road AVALON BEACH NSW 2107

I completely reject this development. It sets a dangerous precedent for what is now already congested area....since the "undesirable" trees were removed last week I have found many new, abandoned possums looking for another home.....however their habitats are already full..... The congestion on the roads and parking are an issue, most if not all have been reduced to one lane. I could go on, but I urge the development be rejected.
