RE: DA2019/0200 - 130 Old Pittwater Road BROOKVALE NSW 2100

I am a resident of Allambie Hts and have been most of my life. I oppose this development very strongly. I have seen more wallaby's in Allambie of recent times than I have seen before, which I am delighted to see. The areas of bush in which these creatures live and feed are precious not only to them but to the people of Allambie. We do not want to see them destroyed or in this case divided in the middle by concrete and factories. This will have dire consequences for the species that live there and that is unacceptable. Our local wildlife must be protected by the council.
