To Rob Stokes, the members of the panel and anyone who will listen,

I have lived in Newport for over 15 years and have enjoyed the village feel of our community. I truly believe this development will ruin our Newport precinct.

I write this email as I am disappointed that you have not listened to the local community. I do not want this development, which will have a negative and adverse effect on the streetscape and amenity of Robertson Road for the future.

I believe the garage entrance on Robertson Road, will mean that the use of Robertson Road as a community centre with restaurants with outdoor seating, market days and having the ability to block traffic will be no longer be an option.

I am frustrated and that you have not listened to the local community, who have not had enough opportunity to have input into the design of the development that will impact the future of the Newport precinct.

Please listen to the local community.

From a frustrated Newport Family.
