The playground and outdoor area at the Belrose Bowling club should be re-opened.

Belrose is a suburb with an increasing number of young families and the suburb lacks good family friendly venues with facilities like the BBC.

In our experience the patrons, guided by the staff at the club, have always been respectful of the neighbours.

In our new covid world many venue's throughout Sydney have been provided with licences that allows patrons to more safely socialise outside - the fact the play and outdoor table area has been closed is ridiculous and it counter to what is occurring elsewhere in Sydney.

I understand the outdoor area closes at 8.30pm which is reasonable and respectful of its neighbours. I would understand this issue far more if the garden stayed open until late. But it does not. Neither does it have loud music or attract a party crowd. Again in our experience, even throughout the summer this area is rarely used in evening.

The garden should be reopened.
