Re: Proposed modification to driveway under DA 2018/0449

It is proposed that the driveway be made one metre longer to allow for a more gentle slope. The original plan shows a 15% gradient over a distance of some 3.2m but the same gradient of 15% over 5.5m would better accommodate car entry and exit. The driveway would then finish 1.5m from the northern boundary.

It is proposed to reduce the width of the driveway from 3.65m to 3.2m to more comfortably fit on the site.

These changes would not affect any other elements be they building or otherwise on the site and would be in accordance with the DA requirements.

Yours sincerely,

Two handwritten signatures in black ink. The first signature is cursive and appears to read 'David Catchlove'. The second signature is also cursive and appears to read 'Mary Catchlove'.
