**RE: DA2018/1924 - Forest Way FRENCHS FOREST NSW 2086**

I am not opposed to the re-development. However, the effects of traffic filtering down onto local streets is of major concern. The proposed no right turn into Forestway will filter traffic down to Altona, Deakin, Bentley and Brown.

We has witnessed the impact of this during the period of roadworks in the last few years. Grace is just too narrow to handle the amount of traffic in both directions these changes will create.

I ask that the proposed road changes be re-considered.
