Dear Mr Bellomo

Proposed Subdivision and Construction of Residential Dwellings

I refer to your e mail dated 30th May 2018 requesting Roads & Maritime Services (RMS) review the RMS condition requiring "The area required for road should be identified as a separate lot in any plan of subdivision".

RMS would raise no objection to the alteration of the above condition to "The area required for road should be identified on any plan of subdivision".

Do not hesitate to call and discuss the above, if required

Yours sincerely
