**RE: WATER RECIRCULATION SYSTEM - SWIMMING POOL
Lot 8 - 8 SPRING COVE AVENUE , MANLY**

We confirm the following compliances:

- That the swimming pool filtration system has been installed in accordance with Australian Standard AS1926.3-2010 Part 3 Water Recirculation Systems.
- That an overflow has been connected to the swimming pool which discharges water to the sewer system in accordance with the requirements of Sydney Water. A sewer gully is located adjacent to the pool equipment.
- The swimming pool fencing has been installed in accordance with AS1926.1-2007

Note:

AS2610.2-2007 Spa Pools & Private Spas. This Australian Standard is not applicable to this swimming pool as there is no spa.

Kind Regards,

G Mitchell
