**RE: DA2019/0200 - 130 Old Pittwater Road BROOKVALE NSW 2100**

This is a letter of objection, and a request that the application regarding this proposed development be refused on the grounds that:

It will have a significant impact to the local wildlife, I lived on that road for years and there are all types of animals, some of which can't simply fly away like the local Wallabies.

Plus, the noise to the local residents, those factory alarms can be triggered on a regularly basis. They mainly went off in the early hours of the morning.
