

Landscape Referral Response

Application Number:	DA2020/0123
Date:	27/02/2020
Responsible Officer:	Georgia Quinn
Land to be developed (Address):	Lot 41 DP 14630 , 82 Bynya Road PALM BEACH NSW 2108

Reasons for referral

This application seeks consent for the following:

- Construction / development works within 5 metres of a tree or
- New residential works with three or more dwellings. (RFB's, townhouses, seniors living, guesthouses, etc). or
- Mixed use developments containing three or more residential dwellings.
- New Dwellings or

Officer comments

Council's Landscape section has assessed the proposal against the following Pittwater 21 DCP 2014 Controls:

B4.22 Preservation of Trees and Bushland Vegetation
D12 Palm Beach Locality

An Arboricultural Impact Assessment has been prepared in accordance with DA Lodgement Requirements, and the recommendations are supported, subject to conditions.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

Recommended Landscape Conditions:

CONDITIONS THAT MUST BE ADDRESSED PRIOR TO ANY COMMENCEMENT

Tree Protection

- A) Existing trees and vegetation shall be retained as follows:
- i) all trees and vegetation within the site, nominated on the plans and as recommended in the Arboricultural Impact Assessment prepared by Margot Blues, shall be protected during all construction stages, excluding exempt trees under the relevant planning instruments or legislation,
 - ii) all other trees and vegetation located on adjoining properties,
 - iii) all road reserve trees and vegetation.

B) Tree protection shall be undertaken as follows:

- i) all tree protection shall be in accordance with AS4970- 2009 Protection of Trees on Development

Sites, with particular reference to Section 4, and according to the Arboricultural Impact Assessment prepared by Margot Blues,

- ii) any tree roots exposed during excavation with a diameter greater than 25mm within the TPZ must be assessed by an Arborist. Details including photographic evidence of works undertaken shall be submitted by an AQF Level 5 Arborist to the Certifying Authority,
- iii) to minimise the impact on trees and vegetation to be retained and protected, no excavated material, building material storage, site facilities, nor landscape materials are to be placed within the canopy dripline of trees and other vegetation required to be retained,
- iv) no tree roots greater than 25mm diameter are to be cut from protected trees unless authorized by the Project Arborist on site,
- v) all structures are to bridge tree roots greater than 25mm diameter unless directed by a AQF Level 5 Arborist on site,
- vi) should either or both iv) and v) occur during site establishment and construction works, a AQF Level 5 Arborist shall provide recommendations for tree protection measures provided. Details including photographic evidence of works undertaken shall be submitted by the Arborist to the Certifying Authority.

Reason: To ensure compliance with the requirement to retain and protect significant planting on development sites, and protect the existing amenity that trees and/or bushland vegetation provide.

Tree Removal

In consideration of the assessment of the development impact, the following existing trees are approved for removal, based on the recommendations of the Arboricultural Impact Assessment report prepared by Margot Blues Consulting Arborist.

- T1 *Eucalyptus haemastoma*

Reason: To ensure compliance with the requirement to retain and protect significant planting on the site
