Regarding this application, please take into consideration the already over congested intersection. The traffic from Bunnings, Woolworths, Aldi and KFC makes this intersection impossible at peak times. There is also a new development on the corner of Kenneth road and Condamine street for which we haven't seen the impact on traffic yet. A Mcdonald's would make local traffic unmanageable. Please listen to resident concerns. This is not in the interest of the community. Lets not give big companies a free run of our communities please.

Regards
