Good afternoon - having been made aware of the proposed development listed above and the environmental implications that would arise, we would like to protest against this proposal being approved.

Having lived for over 20 years only a few 100 metres from the proposed site in Hay Street we are strongly against high density living in such a family area. More apartments - more cars, more traffic, more danger for children as well as the noise and disruption which neighbours would have to endure.

No thankyou Northern Beaches Council - please see sense and have compassion for our beautiful suburb.

Yours sincerely,

Jane and James Webber - 15 Worcester Street, Collaroy .
