Recent Approved Development Applications:

Residing in IRIS St , a known residential area, lately has become very stressful and complex.

My property is located at number 91 and I can see the local and passing traffic increasing constantly.

The proposed constructions will bring another large number of cars (residents, friends ,delivering vans , etc) on an already very busy street, independently from the traffic direct to the Oxford Falls School.

I am submitting this letter to strongly oppose the said development to go ahead.
Thank you. SIGISMUND PREUSS.
