RE: Mod2022/0322 - Pittwater Road COLLAROY NSW 2097

This proposal seeks to access the beach from anywhere along the beachfront. Frazer reserve is already stockpiled and occupied as a site compound. Ramsay st is already occupied as a site compound. Now this application ALSO seeks to use the frazer st road end. What happened to public amenity? Their access should be restricted to the sites already used as compounds. Some of us still wish to access the beach ourselves!
