RE: DA2020/0661 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW 2099

Please accept this submission as strong objection to the proposed telecommunications tower. This due to it not compiling with the recommended proximity to schools and its proximity to playgrounds and community sports fields where large numbers of people (including children) gather each week. Given the resources available to Optus they should be equipped to find a safe and suitable alternative approved by the local community.
