RE: DA2024/1303 - 11 / 0 Melwood Avenue FORESTVILLE NSW 2087

I wish to raise my concerns for the significant reduction in outdoor green space for families. This appears to have come as a result of expanding both indoor and outdoor gaming areas. The Forestville RSL has always been a family club. This plan focusses on providing greater gaming opportunities both in and outdoors whilst diminishing the opportunity for friends and families to gather together. With recent comments in the public and government forums regarding the negative effects of gambling I believe greater emphasis on space for community rather than pokies should be paramount in this development.
