**RE: DA2020/0442 - 231 Whale Beach Road WHALE BEACH NSW 2107**

Despite some time under consideration, this is the first time this grossly inappropriate design has been brought to my attention. If it were to be built in Dee Why or Manly it might sit better in the landscape, but it will be a sore thumb in Whale Beach and a constant reminder of the failure of the NBC to act in the interests of its North Ward constituents. Simply stated, the design is of an architectural and material character and bulk out of kilter with its surrounds; the streetscape, especially but not only from the beachside; and with the laidback nature of the general area. It would introduce a building bulk and style that will forever damage the built character and living ambience of Whale Beach. When's the next Council election?
