RE: DA2021/0744 - 50 Lawrence Street FRESHWATER NSW 2096

Please stop it. There is no value other than profit through development. That is a woeful excuse to destroy some of the charm and delight of Freshwater. Make your legacy count. Protect the place and be known as someone who cared enough to do the right thing. It can't all be about profit for developers. That's not the society we want. If it's the society you want, why? This proposal has no merit other than profit. Not good enough. Let us celebrate your bravery. Please
