RE: Mod2022/0090 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW 2099

I strongly object to the proposed modification and would like to emphasise the importance of the Revegetation plan as originally proposed.

This Optus tower and substation will be an eye sore in the park and green space hence the importance of revegetation to try to compensate in a minimal way for its presence.
