### Reasons for referral

This application seeks consent for the following:

- New Dwellings or
- Applications that require OSD where additional impervious area exceeds 50m<sup>2</sup> or
- Alterations to existing or new driveways or
- Where proposals affect or are adjacent to Council drainage infrastructure incl. watercourses and drainage channels or
- Torrens, Stratum and Community Title Subdivisions or
- All new Commercial and Industrial and RFB Development with the exception of signage or
- Works/uses in flood affected areas

And as such, Council's development engineers are required to consider the likely impacts on drainage regimes.

**Officer comments**

Development Engineers raise no objections to the deletion of condition 5, as Council is still withholding onto the bonds related to rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoining the site as a result of construction or transportation of materials and equipment to and from the development site, on other Development Consents related to the same property.
