Application Number:	DA2020/0187	
Responsible Officer:	Kelsey Wilkes	
Land to be developed (Address):	Lot 6 DP 31216, 48 Beacon Avenue BEACON HILL NSW 2100	
Proposed Development:	Alterations and additions to a dwelling house	
Zoning:	Warringah LEP2011 - Land zoned R2 Low Density Residential	
Development Permissible:	Yes	
Existing Use Rights:	No	
Consent Authority:	Northern Beaches Council	
Land and Environment Court Action:	No	
Owner:	Richard Charles Thomas Wulff Elisha Jayne Mckie	
Applicant:	Richard Charles Thomas Wulff	
Application Lodged:	27/02/2020	
Integrated Development:	No	
Designated Development:	No	
State Reporting Category:	Residential - Alterations and additions	
Notified:	10/03/2020 to 24/03/2020	
Advertised:	Not Advertised	
Submissions Received:	0	
Clause 4.6 Variation:	Nil	
Recommendation:	Approval	
Estimated Cost of Works:	\$ 9,800.00	

PROPOSED DEVELOPMENT IN DETAIL

This application seeks consent for alterations and additions to an existing dwelling house including:

• Extension of the existing first floor rear balcony towards the east and south. This will result in the balcony being irregularly shaped, measuring a length of 10.1 meters and a maximum depth of 3.4 meters. The balcony is proposed to include a frosted glass balustrade and be fitted with a privacy screen at the southern elevation.

ASSESSMENT INTRODUCTION

DA2020/0187 Page 1 of 18

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared (the subject of this report) taking into account all relevant provisions of the Environmental Planning and Assessment Act 1979, and the associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon the subject site and adjoining, surrounding and nearby properties;
- Notification to adjoining and surrounding properties, advertisement (where required) and referral
 to relevant internal and external bodies in accordance with the Act, Regulations and relevant
 Development Control Plan;
- A review and consideration of all submissions made by the public and community interest groups in relation to the application;
- A review and consideration of all documentation provided with the application (up to the time of determination);
- A review and consideration of all referral comments provided by the relevant Council Officers, State Government Authorities/Agencies and Federal Government Authorities/Agencies on the proposal.

SUMMARY OF ASSESSMENT ISSUES

Warringah Development Control Plan - B9 Rear Boundary Setbacks Warringah Development Control Plan - D8 Privacy

SITE DESCRIPTION

Property Description:	Lot 6 DP 31216 , 48 Beacon Avenue BEACON HILL NSW 2100			
Detailed Site Description:	The subject site consists of Lot 6 within DP 31216 and is located on the eastern side of Beacon Avenue, Beacon Hill.			
	The site is irregular in shape with a frontage of 12.19m along Beacon Avenue, a south western boundary depth of 36.575m and a north eastern boundary depth of 31.535m. The site has a surveyed area of 560.6m².			
	The site is located within the R2 Low Density Residential zone and accommodates an existing two storey dwelling and attached garage.			
	The subject and surrounding sites are supported by retaining structures which results in these site's being relatively flat however Beacon Avenue itself falls steeply towards the south west.			
	Landscaping on site is characterised by grass lawns and small to medium shrubs.			
	Detailed Description of Adjoining/Surrounding			

DA2020/0187 Page 2 of 18

Development

Adjoining and surrounding development is characterised by residential dwelling houses within similar sized allotments and of similar ages and architectural styles. Due to the topography of the land, many properties on the eastern side of Beacon Avenue enjoy extensive district and ocean views towards the north, east and south.

SITE HISTORY

The land has been used for residential purposes for an extended period of time. A search of Council's records has revealed the following relevant history:

DA2019/1391

Alterations and additions to dwelling house - The application was withdrawn on 6 February 2020 following the request made by Council due to missing information and privacy impacts resulting from non-compliance.

ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979, are:

Section 4.15 Matters for Consideration'	Comments
	See discussion on "Environmental Planning Instruments" in this report.
Section 4.15 (1) (a)(ii) –	Draft State Environmental Planning Policy (Remediation of Land)

DA2020/0187 Page 3 of 18

Section 4.15 Matters for Consideration'	Comments	
Provisions of any draft environmental planning instrument	seeks to replace the existing SEPP No. 55 (Remediation of Land Public consultation on the draft policy was completed on 13 April 2018. The subject site has been used for residential purposes for an extended period of time. The proposed development retains the residential use of the site, and is not considered a contamination risk.	
Section 4.15 (1) (a)(iii) – Provisions of any development control plan	Warringah Development Control Plan applies to this proposal.	
Section 4.15 (1) (a)(iiia) – Provisions of any planning agreement	None applicable.	
Section 4.15 (1) (a)(iv) – Provisions of the Environmental Planning and Assessment Regulation 2000 (EP&A Regulation 2000)	<u>Division 8A</u> of the EP&A Regulation 2000 requires the consent authority to consider "Prescribed conditions" of development consent. These matters have been addressed via a condition of consent.	
Trogulation 2000)	Clause 50(1A) of the EP&A Regulation 2000 requires the submission of a design verification certificate from the building designer at lodgement of the development application. This clause is not relevant to this application.	
	Clauses 54 and 109 of the EP&A Regulation 2000 allow Council to request additional information. No additional information was requested in this case.	
	Clause 92 of the EP&A Regulation 2000 requires the consent authority to consider AS 2601 - 1991: The Demolition of Structures. This clause is not relevant to this application.	
	Clauses 93 and/or 94 of the EP&A Regulation 2000 requires the consent authority to consider the upgrading of a building (including fire safety upgrade of development). This clause is not relevant to this application.	
	Clause 98 of the EP&A Regulation 2000 requires the consent authority to consider insurance requirements under the Home Building Act 1989. This matter has been addressed via a condition of consent.	
	Clause 98 of the EP&A Regulation 2000 requires the consent authority to consider the provisions of the Building Code of Australia (BCA). This matter has been addressed via a condition of consent.	
	<u>Clause 143A</u> of the EP&A Regulation 2000 requires the submission of a design verification certificate from the building designer prior to the issue of a Construction Certificate. This clause is not relevant to this application.	

DA2020/0187 Page 4 of 18

Section 4.15 Matters for Consideration'	Comments
Section 4.15 (1) (b) – the likely impacts of the development, including environmental impacts on the natural and built environment and social and economic impacts in the locality	(i) Environmental Impact The environmental impacts of the proposed development on the natural and built environment are addressed under the Warringah Development Control Plan section in this report. (ii) Social Impact The proposed development will not have a detrimental social impact in the locality considering the character of the proposal. (iii) Economic Impact The proposed development will not have a detrimental economic impact on the locality considering the nature of the existing and proposed land use.
Section 4.15 (1) (c) – the suitability of the site for the development	The site is considered suitable for the proposed development.
Section 4.15 (1) (d) – any submissions made in accordance with the EPA Act or EPA Regs	See discussion on "Notification & Submissions Received" in this report.
Section 4.15 (1) (e) – the public interest	No matters have arisen in this assessment that would justify the refusal of the application in the public interest.

EXISTING USE RIGHTS

Existing Use Rights are not applicable to this application.

BUSHFIRE PRONE LAND

The site is classified as bush fire prone land. Section 4.14 of the Environmental Planning and Assessment Act 1979 requires Council to be satisfied that the development conforms to the specifications and requirements of the version (as prescribed by the regulations) of the document entitled Planning for Bush Fire Protection.

A Bush Fire Report was submitted with the application (prepared by Matthew Willis of Bushfire Planning Services Pty Ltd, dated 17 February 2020). The report recommended an alternative solution to comply with Planning for Bush Fire Protection.

The application was referred to the NSW Rural Fire Service for further assessment. The NSW RFS raised no objections to approval, subject to conditions. The recommendations of the Bush Fire Report , along with the conditions from the NSW RFS have been included as part of the recommended conditions of consent.

NOTIFICATION & SUBMISSIONS RECEIVED

The subject development application has been publicly exhibited in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2000 and the relevant Development Control Plan.

As a result of the public exhibition of the application Council received no submissions.

DA2020/0187 Page 5 of 18

REFERRALS

External Referral Body	Comments
Ausgrid: (SEPP Infra.)	The proposal was referred to Ausgrid. No response has been received within the 21 day statutory period and therefore, it is assumed that no objections are raised and no conditions are recommended.
NSW Rural Fire Service – local branch (s79BA EPAA)	The application was referred to the NSW Rural Fire Service for further assessment. A response was provided on 6 April 2020 raising no objections to approval, subject to conditions. The recommendations of the Bush Fire Report , along with the conditions from the NSW RFS have been included as part of the recommended conditions of consent.

ENVIRONMENTAL PLANNING INSTRUMENTS (EPIs)*

All, Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the merit assessment of this application.

In this regard, whilst all provisions of each Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the assessment, many provisions contained within the document are not relevant or are enacting, definitions and operational provisions which the proposal is considered to be acceptable against.

As such, an assessment is provided against the controls relevant to the merit consideration of the application hereunder.

State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans (SREPs)

SEPP 55 - Remediation of Land

Clause 7 (1) (a) of SEPP 55 requires the Consent Authority to consider whether land is contaminated. Council records indicate that the subject site has been used for residential purposes for a significant period of time with no prior land uses. In this regard it is considered that the site poses no risk of contamination and therefore, no further consideration is required under Clause 7 (1) (b) and (c) of SEPP 55 and the land is considered to be suitable for the residential land use.

Warringah Local Environmental Plan 2011

Is the development permissible?	Yes	
After consideration of the merits of the proposal, is the development consistent with:		
aims of the LEP?	Yes	
zone objectives of the LEP?	Yes	

Principal Development Standards

DA2020/0187 Page 6 of 18

Standard	Requirement	Proposed	% Variation	Complies
Height of Buildings:	8.5m	4.8m	N/A	Yes

Compliance Assessment

Clause	Compliance with Requirements
2.7 Demolition requires consent	Yes
4.3 Height of buildings	Yes
6.2 Earthworks	Yes
6.4 Development on sloping land	Yes

Warringah Development Control Plan

Built Form Controls

Built Form Control	Requirement	Proposed	% Variation*	Complies
B1 Wall height	7.2m	4.8m	N/A	Yes
B3 Side Boundary Envelope	4m (South)	Within	N/A	Yes
	4m (North)	Within	N/A	Yes
B5 Side Boundary Setbacks	0.9m (South)	1.3m	N/A	Yes
	0.9m (North)	5.9m	N/A	Yes (Existing and unchanged)
B7 Front Boundary Setbacks	6.5m	26.9m	N/A	Yes
B9 Rear Boundary Setbacks	6m	3.7m - 5.5m	8.4% - 38.4%	No
D1 Landscaped Open Space (LOS) and Bushland Setting	40%	42%	N/A	Yes

^{*}Note: The percentage variation is calculated on the *overall* numerical variation (ie: for LOS - Divide the proposed area by the numerical requirement then multiply the proposed area by 100 to equal X, then 100 minus X will equal the percentage variation. Example: 38/40 x 100 = 95 then 100 - 95 = 5% variation)

Compliance Assessment

E1 Preservation of Trees or Bushland Vegetation	Yes	Yes
E2 Prescribed Vegetation	Yes	Yes
E6 Retaining unique environmental features	Yes	Yes
E10 Landslip Risk	Yes	Yes

Detailed Assessment

B9 Rear Boundary Setbacks

Description of non-compliance

At the northern elevation, the proposed balcony is located at a minimum distance of 3.7 meters from the rear boundary. This setback increases to a maximum distance of 5.5 meters from the rear boundary as the balcony extends towards the south. This results in failure to comply with the 6 meter setback requirement and presents variations of between 8.4 and 38.4 percent.

Merit consideration:

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

To ensure opportunities for deep soil landscape areas are maintained.

Comment:

The proposed balcony is located at first floor level and will be supported by posts. Any deep soil landscaped areas which exist within the rear yard below will therefore remain unchanged and opportunity will still be provided for the planting of low to medium shrubs directly beneath the balcony. The site also complies with the 40% requirement for landscaped open space.

To create a sense of openness in rear yards.

DA2020/0187 Page 8 of 18

Comment:

It is noted that the site is subject to an older style dwelling which as existing is concentrated towards the rear of site resulting in part of the dwelling also being non-compliant with the current rear setback requirement.

The proposed balcony has been designed to be cantilevered where possible, with a small number of supporting posts which assists to minimise the bulk and scale of the structure and therefore maintain a sense of openness. The balcony is at it's narrowest where it is closest to the rear boundary and widens as it extends towards the south where the setback is also increased due to the angle of rear boundary. While the proposed balcony does in part significantly encroach into the rear setback area, the structure has been designed with articulation and responds to the location of the existing dwelling.

It is therefore considered that given the above factors and existing location of the dwelling, the proposed balcony has been designed to maximise a sense of openness within the rear yard.

- To preserve the amenity of adjacent land, particularly relating to privacy between buildings.
- To provide opportunities to maintain privacy between dwellings.

Comment:

An objection was raised under a previous application (DA2019/1391) regarding privacy impacts resulting from the balcony setback and design. The objectors however were willing to support the the proposal if the balcony and any stairs did not extend any further north of the existing balcony. The application was subsequently withdrawn and the stairs and portion of balcony to the north of the existing balcony have been deleted under this proposal. This has resulted in the minimum setback from the rear boundary also being increased. In addition to this, measures have also been incorporated into the balcony design to assist with improving privacy and this includes a frosted glass balustrade and privacy screen at the south western elevation. While the balcony still remains non-compliant, it is considered that these measures will prevent direct overlooking into adjoining windows and private open spaces from a seated position while using the balcony and also from a standing position when inside the dwelling. It is therefore considered that the privacy of adjacent land will not be unreasonably or adversely impacted by the proposal.

In relation to solar access, shadow diagrams provided with the application indicate that the proposed balcony will result in a small amount of additional overshadowing into the private open space at 46 Beacon Avenue at 9am on 31 June. Shadows will remain unchanged throughout the remainder of the day. Analysis of these diagrams has found that the proposal complies with the requirements of part *D6 Access to Sunlight* of the WDCP 2011.

The addition of the proposed balcony is not anticipated to result in adverse or unreasonable noise levels outside the realms of what would be consistent with residential expectations.

Given the above, it is considered that the overall amenity of adjacent land will be preserved to a reasonable level.

 To maintain the existing visual continuity and pattern of buildings, rear gardens and landscape elements.

Comment:

DA2020/0187 Page 9 of 18

While non-compliant with the rear setback requirement, the location of the proposed balcony is not inconsistent with the setback of balcony development along the eastern side of Beacon Avenue. The location of the proposed balcony will in fact align with the position of the dwelling's rear first floor balcony directly to the south. A precedent has therefore been set due to the location of these existing dwelling's of similar age being located primarily towards the rear of the site.

Siting the balcony will not alter any existing landscape elements within the site.

It is therefore considered that the existing visual continuity and pattern of buildings, rear gardens and landscape elements will be maintained.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of WDCP and the objectives specified in section 5(a) of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

D8 Privacy

The proposal includes the construction of a balcony adjoining the rear of the existing dwelling's first floor and measures approximately 25m². Due to the non-compliant rear setback of this balcony and a substantial portion of it being located within the rear setback area, it is considered that the privacy of adjoining properties particularly to the south and east may be compromised.

It should be noted that an objection was raised under a previous application (DA2019/1391) regarding privacy impacts resulting from the balcony setback and design. The objectors however were willing to support the the proposal if the balcony and any stairs did not extend any further north of the existing balcony. The application was subsequently withdrawn and the stairs and portion of balcony to the north of the existing balcony have been deleted under this proposal. This has resulted in the minimum setback from the rear boundary also being increased. In addition to this, measures have also been incorporated into the balcony design to assist with improving privacy and this includes a frosted glass balustrade and privacy screen at the south western elevation. While the balcony still remains noncompliant, it is considered that these measures will prevent direct overlooking into adjoining windows and private open spaces from a seated position while using the balcony and also from a standing position when inside the dwelling.

It is noted that due to the location of existing dwelling's along the eastern side of Beacon Avenue which are of similar age and architectural style, the proposal is not inconsistent with the setback of first floor balcony development along this side of the street. The only difference is that the rear boundary at the subject site does not run exactly parallel to the dwelling, resulting in the setback of the balcony to the rear boundary being closer at one end to another.

Overall, it is considered that the changes made to the design of the balcony under this application, coupled with the included privacy measures, will result in a reasonable level of privacy being maintained to adjoining properties and the proposal is therefore supported.

THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES

The proposal will not significantly effect threatened species, populations or ecological communities, or their habitats.

DA2020/0187 Page 10 of 18

CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

POLICY CONTROLS

Northern Beaches Section 7.12 Contributions Plan 2019

As the estimated cost of works is less than \$100,001.00 the policy is not applicable to the assessment of this application.

CONCLUSION

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2000;
- All relevant and draft Environmental Planning Instruments;
- Warringah Local Environment Plan;
- Warringah Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

RECOMMENDATION

THAT Council as the consent authority grant Development Consent to DA2020/0187 for Alterations and additions to a dwelling house on land at Lot 6 DP 31216, 48 Beacon Avenue, BEACON HILL, subject to the conditions printed below:

DEVELOPMENT CONSENT OPERATIONAL CONDITIONS

DA2020/0187 Page 11 of 18

1. Approved Plans and Supporting Documentation

The development must be carried out in compliance (except as amended by any other condition of consent) with the following:

a) Approved Plans

Architectural Plans - Endorsed with Council's stamp			
Drawing No.	Dated	Prepared By	
SP:1 Floor Plan : New Balcony	9 February 2020	RW	
ELE:1E North East Elevation	9 February 2020	RW	
ELE:3E South West Elevation	12 February 2020	RW	
ELE:2E Rear Elevation	9 February 2020	RW	

Reports / Documentation – All recommendations and requirements contained within:				
Report No. / Page No. / Section No.	Dated	Prepared By		
Bushfire Report	17 February 2020	Matthew Willis		
Geotechnical Report	4 July 2019	Douglas Partners		

- b) Any plans and / or documentation submitted to satisfy the Conditions of this consent.
- c) The development is to be undertaken generally in accordance with the following:

Waste Management Plan				
Drawing No/Title.	Dated	Prepared By		
Waste Management Plan	30 January 2020	Richard Wulff		

In the event of any inconsistency between conditions of this consent and the drawings/documents referred to above, the conditions of this consent will prevail.

Reason: To ensure the work is carried out in accordance with the determination of Council and approved plans.

2. Compliance with Other Department, Authority or Service Requirements

The development must be carried out in compliance with all recommendations and requirements, excluding general advice, within the following:

Other Department, Authority or Service	EDMS Reference	Dated
New South Wales Rural Fire Service	NSW RFS Referral	6 April 2020

(NOTE: For a copy of the above referenced document/s, please see Application Tracking on Council's website www.northernbeaches.nsw.gov.au)

Reason: To ensure the work is carried out in accordance with the determination and the statutory requirements of other departments, authorities or bodies.

DA2020/0187 Page 12 of 18

3. Prescribed Conditions

- (a) All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).
- (b) BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);
- (c) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
 - (i) showing the name, address and telephone number of the Principal Certifying Authority for the work, and
 - (ii) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
 - (iii) stating that unauthorised entry to the work site is prohibited.

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.

- (d) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
 - (i) in the case of work for which a principal contractor is required to be appointed:
 - A. the name and licence number of the principal contractor, and
 - B. the name of the insurer by which the work is insured under Part 6 of that Act,
 - (ii) in the case of work to be done by an owner-builder:
 - A. the name of the owner-builder, and
 - B. if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

- (e) Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:
 - (i) protect and support the adjoining premises from possible damage from the excavation, and
 - (ii) where necessary, underpin the adjoining premises to prevent any such damage.
 - (iii) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
 - (iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

DA2020/0187 Page 13 of 18

In this clause, allotment of land includes a public road and any other public place.

Reason: Legislative requirement.

4. General Requirements

(a) Unless authorised by Council:

Building construction and delivery of material hours are restricted to:

- 7.00 am to 5.00 pm inclusive Monday to Friday,
- 8.00 am to 1.00 pm inclusive on Saturday,
- No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

• 8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

- (b) Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.
- (c) At all times after the submission the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of a final Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.
- (d) Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.
- (e) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.
- (f) Prior to the release of the Construction Certificate, payment of the Long Service Levy is required. This payment can be made at Council or to the Long Services Payments Corporation. Payment is not required where the value of the works is less than \$25,000. The Long Service Levy is calculated on 0.35% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.
- (g) The applicant shall bear the cost of all works associated with the development that occurs on Council's property.
- (h) No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.
- (i) Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.
- (j) No trees or native shrubs or understorey vegetation on public property (footpaths,

DA2020/0187 Page 14 of 18

roads, reserves, etc.) or on the land to be developed shall be removed or damaged during construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.

- (k) Prior to the commencement of any development onsite for:
 - i) Building/s that are to be erected
 - ii) Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place
 - iii) Building/s that are to be demolished
 - iv) For any work/s that is to be carried out
 - v) For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.

- (I) A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.
- (m) Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.
 - (1) Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following;

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:

- (i) Swimming Pools Act 1992
- (ii) Swimming Pools Amendment Act 2009
- (iii) Swimming Pools Regulation 2008
- (iv) Australian Standard AS1926 Swimming Pool Safety
- (v) Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
- (vi) Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
- (2) A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.
- (3) Filter backwash waters shall be conveyed to the Sydney Water sewerage system in sewered areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system.
- (4) Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

FEES / CHARGES / CONTRIBUTIONS

5. Security Bond

A bond (determined from cost of works) of \$1,000 and an inspection fee in accordance with Council's Fees and Charges paid as security to ensure the rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoining the site as a result of construction or the transportation of materials and equipment to and from the development site.

An inspection fee in accordance with Council adopted fees and charges (at the time of payment) is payable for each kerb inspection as determined by Council (minimum (1) one inspection).

All bonds and fees shall be deposited with Council prior to Construction Certificate or demolition work commencing, details demonstrating payment are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

To process the inspection fee and bond payment a Bond Lodgement Form must be completed with the payments (a copy of the form is attached to this consent and alternatively a copy is located on Council's website at www.northernbeaches.nsw.gov.au).

Reason: To ensure adequate protection of Council's infrastructure.

CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION CERTIFICATE

6. **Boundary Identification Survey**

A boundary identification survey, prepared by a Registered Surveyor, is to be prepared in respect of the subject site.

The plans submitted for the Construction Certificate are to accurately reflect the property boundaries as shown on the boundary identification survey, with setbacks between the property boundaries and the approved works consistent with those nominated on the Approved Plans of this consent.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to the issue of any Construction Certificate.

Reason: To ensure all approved works are constructed within the subject site and in a manner anticipated by the development consent.

7. Compliance with Standards

The development is required to be carried out in accordance with all relevant Australian Standards.

Details demonstrating compliance with the relevant Australian Standard are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: To ensure the development is constructed in accordance with appropriate standards.

8. Privacy Screen

DA2020/0187 Page 16 of 18

The proposed privacy screen at the south western elevation of the proposed balcony is to comprise of a maximum 25% openings.

Details demonstrating compliance shall be provided to the Principal Certifying Authority prior to the issue of a Construction Certificate and shall be maintained for the life of the development.

Reason: To ensure the screen facilitates a sufficient level of privacy.

9. Waste Management Plan

A Waste Management Plan must be prepared for this development. The Plan must be in accordance with the Development Control Plan.

Details demonstrating compliance must be provided to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: To ensure that any demolition and construction waste, including excavated material, is reused, recycled or disposed of in an environmentally friendly manner.

CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

10. Waste Management During Development

The reuse, recycling or disposal of waste during works must be done generally in accordance with the Waste Management Plan for this development.

Details demonstrating compliance must be submitted to the Principal Certifying Authority.

Reason: To ensure demolition and construction waste is recycled or reused and to limit landfill.

11. Installation and Maintenance of Sediment Control

Measures used for erosion and sediment control on building sites are to be adequately maintained at all times and must be installed in accordance with Council's Specifications for Erosion and Sediment Control. All measures shall remain in proper operation until all development activities have been completed and the site fully stabilised.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority.

Reason: To protect the environment from the effects of sedimentation and erosion from development sites.

In signing this report, I declare that I do not have a Conflict of Interest.

Signed
