**RE: DA2018/1924 - Forest Way FRENCHS FOREST NSW 2086**

My husband and I own a house in Naree Road, Frenchs Forest. We support the above application. Frenchs Forest is a developing suburb and the additions and alterations to the Forestway Shopping Centre will benefit all residents, people working in the area, people who stop and shop as they drive through.

The Frenchs Forest Precinct Plan should be supported and the sooner Phase 1 is commenced the better. There are thousands of people whose lives are in limbo, caught up in the slow progress of the development of the area.

We need more affordable housing and this can only be achieved through carefully planned high-rise housing. Not everyone wants to live in a single dwelling!

We have been significantly affected for the past two years with major road works, literally 10 metres from the living room and 2 bedrooms in our house!!!

Let the appropriate development be approved and commenced, so the thousands of people who are "stuck" in Frenchs Forest have the chance to sell their properties and move on to "greener pastures"!
