RE: REV2022/0024 - 394 Barrenjoey Road NEWPORT NSW 2106

Newport SLSC is one of the oldest in Australia and what's more is servicing one of Sydney's largest beaches. The current facility both in terms of structure and engineering badly needs updating to reflect the needs of the community and safety of visitors. If we look at a lot of the surf lifesaving clubs in Sydney they are often the focal point for the community and the planned development would give the broader a report community a facility it deserves.
