**RE: DA2019/1234 - 0 Wharves And Jetties MANLY NSW 2095**

I wish to place a strong objection to DA2019/1234.

The alterations and additions applied for to accomodate an extra 438 outdoor seats will create an approximate total of 2,500 seats in the wharf area. This will adversely impact on the views of surrounding residences and it will cause an impact with noise, thumping music, drinking and party crowding poor behaviour.

It will also significantly negatively alter the look of our heritage wharf and will discourage visitors to disperse to other venues and areas throughout Manly.
