RE: DA2020/0261 - 18 Alexander Street COLLAROY NSW 2097

The proposed D.A. Will cause detriment to our street by effecting

- parking concerns already in the street which causes safety issues to pedestrians as we walk down our street
- the proposed D.A. Doesn't allow for enough landscaping on the site which would assist in draining away water from an already flood prone area of the street
- increase in traffic to the street would be a safety issue to an already dangerous vehicle street
