**Subject:** 16 Bangaroo Street, REV2022/0004 objection to revised plans

Hi Maxwell,

I wish to advise Council that the revised plans and reports for this application DO NOT address the issues I have raised in previous objections.

This development has no merit.

There are a multitude of submissions that highlight why that is the case.

The continual revisions to plans should be enough to see that the applicants are failing to find a solution to all of the problems with the conversion of the site and property to a purpose it is not designed or suitable for.

I trust that Council will uphold its previous decision and reject this application.

Kind regards,
