RE: DA2021/1338 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I fully support DA2021/1338 made by the Bayview Golf Club.

The Bayview Golf Club is a significant local asset for the Northern Beaches Community and I believe the proposed works will;

- 1) Significantly improve the effects of local flooding.
- 2) Enable a better use of local rain water, reducing the clubs reliance on water from Sydney Waters general reserves.
- 3) Improve environmental outcomes, e.g reducing potentially damaging effects of flooding and pollutant run off.
- 4) Increase the appeal of the Bayview Golf Club for members and guests alike.
- 5) Improve the safety for members of the community who use the Bayview Golf Club
- 6) Have no detrimental impacts on neighbouring properties
