RE: DA2018/1708 - 197 Sydney Road FAIRLIGHT NSW 2094

Hi,
Please address the issue that council have not distributed notices of this DA to ALL people directly affected by it. I refer to your very limited Notification Map, it is merely direct neighbors on Sydney Road and behind. Please ensure the next round of council notices are sent out to ALL residents of Brisbane Street (this street is directly OPPOSITE this development and yet was not included last time), Melbourne, Bellevue, Cohen, William streets and all sections of Sydney Road BETWEEN Melbourne and William Streets. These residents / streets will be impacted directly by on street parking, noise, traffic disruption etc. So these residents should also be able to have their voice heard. Councils handling of this DA to date, I feel has not been handled in a professional or appropriate manner considering the size of this development. Many issues have surfaced eg. the late notification to residents half way through the submission dates, the submission dates being altered incorrectly today blocking any further submissions with it closing tomorrow (I note this is now extended after my phone call to Felicity), not all residents directly affected by this DA being notified of the DA, the DA not showing up on a location map search, etc. etc. Thank you.
