RE: Mod2017/0106 - 894 Pittwater Road DEE WHY NSW 2099

My concern for these extended hours, is for my young family and being woken by the ongoing noise both morning and night. This will have a detrimental impact on our daily lives, until completed.

There has been no consideration to the residents of Dee Why(current rate payers), especially those directly impacted by the work completed to date.

I'll be deeply concerned if this is approved by the Council and would look to have Merit find a better solution, considering they're impacting not 1 but 2 streets and surrounding residents who have also raised a submission.
