RE: PEX2014/0004 - 9 Howard Avenue DEE WHY NSW 2099

I object to any amendments to the Warringah Local Environmental Plan 2011 and to amend the site specific controls and development standards for 'Site B' contained within Warringah Local Environmental Plan 2011 (WLAP2011). This act, which rate payers enacted through extensive consultation over 5 years, exist to protect the environment and beauty of our Peninsula and its beach village atmosphere.

Developers should fit their wishes to satisfy the Warringah communities standards NOT the community fit their needs to a developers wishes.
