RE: DA2022/0469 - 1102 Barrenjoey Road PALM BEACH NSW 2108

I am opposed to this most recent re submission
Of this DA as it still fails to address the main issues with the design .
The submission is still over height, has issues with scale and bulk & length.
Is not in keeping with the heritage building next door or the character of the locality. Or it's
ongoing future character as wishes for by residents of
The local area.
This area with its existing heritage building should be protected from thoughtless and short
sighted development such as this.
