Memorandum – Fire Engineering Report Updates

## Station Beach Boat House

Dear Peter,

This document provides a description of the changes that have been undertaken to the Fire Engineering Report as part of the updates to incorporate updated project documentation.

### 1. Reference Information

The following reports are applicable:

- [1] Fire Engineering Report by Minerva Group | Document Ref. 20036-FER-001 | Revision G | Dated 16 February 2021
- [2] Assessment Report – DG Advice – TFA Project Management Revision 4 dated 11 August 2020
- [3] Assessment Report – DG Advice – TFA Project Management Revision 5 dated 08 February 2021

### 2. Report Updates

The Fire Engineering Report [1] has been updated following design and documentation changes. The updated documentation considered in the Fire Engineering Report includes the latest architectural drawings and an updated Dangerous Goods Report [3].

The updated architectural drawings have been incorporated in the Fire Engineering Report [1]. The assessment in the performance solutions as documented in the report have similarly been updated to account for changes in the architectural drawings. There are no changes to the Fire Safety Design or the intent of the report as a result of the updates.

The Fire Engineering Report [1] also considers the revised Dangerous Goods Report [2] for the project. Following our review of this report, our conclusion of the impact on the Fire Engineering Report [1] remain unchanged from our review of the previous issue of the Dangerous Goods Report [3].

Provided that the recommendations of the Dangerous Goods Report [3] are implemented there will be no implication on the assessment and findings of the Fire Engineering Report [1].

### 3. Summary

This document provides a summary of the updates incorporated in the Fire Engineering Report [1]. There are no changes to the Fire Safety Design or the intent of the report as a result of the updates.

Please feel free to contact us should you have any queries.

Sincerely,

**Eliot Reeves, MIEAust, CPEng, NER**
