RE: DA2021/0179 - 255 Condamine Street MANLY VALE NSW 2093

Residents of boarding houses are generally transient, often from backgrounds of drug and alcohol use, sometimes on parole or bail. Hundreds of children walk past this site every day. I do not believe the proposal is in the character of the local area. The application to build over the creek will be devastating for the local flora and fauna. Insufficient car space which is a huge problem in our area given the amount of apartments with a lack of parking space.
