RE: DA2024/0622 - 292 Condamine Street NORTH MANLY NSW 2100

I fully support the above application. The application for the construction of a new golf clubhouse and community facility has already been approved by Council, with this application being for the inclusion of a cafe/restaurant within the already approved building. The addition of such a facility will enable the provision of meals, coffee/tea and bar facilities that are currently lacking within the vicinity which will be able to be accessed by all members of the community.
