RE: DA2021/2567 - 60 Federal Parade BROOKVALE NSW 2100

it's bad enough that we have traffic problems from the mornings to afternoons every week. even without this newly implemented parking lot, it takes 20-40mins just for the traffic to clear up and for the RESIDENTAL, and I must emphasise again, RESIDENTAL block to be in normal traffic conditions. Reading some of the previous complaints and previous attempt to establish more property I fail to see why they don't just give up on the idea and realise how incredibly inconvenient it is for the residents in the block and how this really ends up doing more harm for them than good.
